

Our Managing Director:

Sarah Otto, MPA, M.Ed.

B.S. – Special Education, University of Maryland
M.Ed. – Education, University of Maryland
M.P.A. – Master’s Degree in Public Administration, Nonprofit Management, Keller School of Management

Sarah Otto has over 20 years of experience working with individuals with disabilities/special needs. In fact, she taught in various public-school settings in both Kansas and Missouri. Yet, she found her passion serving as a Targeted Case Manager for individuals with Intellectual and Developmental Disabilities (I/DD) in Johnson County, Kansas, over the last 8 years.

Sarah is originally from Connecticut and attended college at the University of Maryland. When she’s not at work, she can be found enjoying a new restaurant in Kansas City with her family or serving on the Board of Directors for Camp Encourage.

Among her many talents, Sarah is known to have a “green thumb” and enjoys gardening. She also enjoys researching genealogy and spending time with her husband and two daughters.

**TARGETED CASE MANAGEMENT
OF KANSAS**

**TARGETED
CASE MANAGEMENT
OF KANSAS**

Our Mission:

Our services focus on supporting each individual, so that they have the resources they need to live to their fullest potential.

What is Targeted Case Management?

Targeted Case Management assists a person (and their caregivers/ support network) with identifying, developing, selecting, obtaining, coordinating, utilizing and monitoring paid services and natural supports. The goal is to enhance the individual’s independence, integration, productivity and community inclusion that aligns with the person’s needs and lifestyle preferences. These preferences are outlined in the person-centered support plan.

About Us:

We are a new, independent Targeted Case Management agency!
We are NOW providing services in:

**Johnson County, KS and
Wyandotte County, KS!**

As we grow, the counties we serve will also expand!

Why Choose Us:

When you work with us, you will experience a knowledgeable and supportive team with diverse professional experiences focused on serving children and adults in the community who have intellectual and/or developmental disabilities.

Our case managers have college degrees.

We have case managers with backgrounds in education, special education, and mental/behavioral health. Because of that, we work collaboratively with community providers, agencies, organizations and state departments. Most of all, we are passionate about supporting each individual in ways that best align with their person-centered plan.

WHO WE SERVE:

We serve people with a diagnosis of:

- Intellectual and/or Developmental Disability
- Behavioral Disability
- SED – Serious Emotional Disability

The Services We Provide Include:

Targeted Case Management is a Medicaid service in Kansas designed to help specific groups of individuals manage and coordinate their healthcare and support services. The primary goal of TCM is to ensure that individuals receive the appropriate services to meet their unique needs, thereby improving their overall health and quality of life.

To that end, we're offering the following:

- Assessment
- Person-Centered Support Plan Development
- Referral to services support coordination
- Monitoring and follow-up of ongoing activities and services
- Assisting with transition and portability throughout the lifespan

WHAT WE BELIEVE:

We are conflict-free advocates to help support the goals and lifestyle wishes of a person who receives or is eligible for services through the intellectual and developmental disability waiver. We believe in the individual rights of a person and provide support as needed to help a person communicate their preferences, abilities and support needs to live their best life.

We are experienced navigators of local, state and federal systems and process to access supports.

We are here to support you every step of your journey!
